**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election with traverse of Group I, claim 1, in the reply filed on December 27, 2007 is acknowledged. The traversal is on the ground(s) that there is no serious burden to search and examine all groups. This is not found persuasive because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, searches for the restricted groups and the various species are not coextensive, therefore, undue burden does exist.

The requirement is still deemed proper and is therefore made FINAL.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Minami et al. (6,583,239) and Minami et al. (WO 03/070790, its family US 7,214,755 is cited hereinafter for convenience).

Minami'239 discloses various double bridged metallocene complexes represented by formulas (I), (I)A and (I)B (col. 3, line 24 to col. 4, line 65). When at least one of Y<sup>1</sup> and Y<sup>2</sup> in those formulas is selected from PR and BR, Minami's teaching anticipates the instant claim.

Art Unit: 1796

Similar rejections are made over the disclosure of Minami'755, see col. 8, lines 12-31.
